

ROBLOX FAMILY SETUP

7 Roblox checks before play

Quick card: one setting at a time, then one conversation.

THE PARENT'S LINKED ACCOUNT

1 LINK PARENT

On child account: Settings > Parental controls > Add parent. Follow adult verification.

2 CONFIRM AGE

Review the real birthdate and age checks. Features depend on age and region.

3 CONTENT

Settings you manage > Content restrictions: ratings, Allowed games and Blocked games.

4 COMMUNICATION

Check Experience chat, Direct chat and Party; age checks or consent may apply.

5 PEOPLE

Review Friends and Visibility & private servers.

6 TIME

Parent page > Screen time > Manage; set a daily limit.

7 MONEY

Spending restrictions: choose a monthly limit and notifications; gift cards differ.

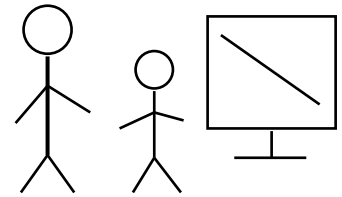

KEEP IN MIND

Before play: no private details, tell a trusted adult about anything uncomfortable, and ask before purchases or moving chats to other apps.

ROBLOX FAMILY SETUP

How to find parental controls

A walkthrough for the parent, not just a list of settings.

CONNECT THE ACCOUNTS FIRST

1 ON YOUR CHILD'S DEVICE

Desktop: Settings via gear icon. Mobile: More > Settings. Open Parental controls.

2 TAP ADD PARENT

Sign in or create a separate parent Roblox account. Complete Roblox adult-verification steps.

3 ACCEPT THE LINK

On your own device open Settings > Parental controls > select your child's account.

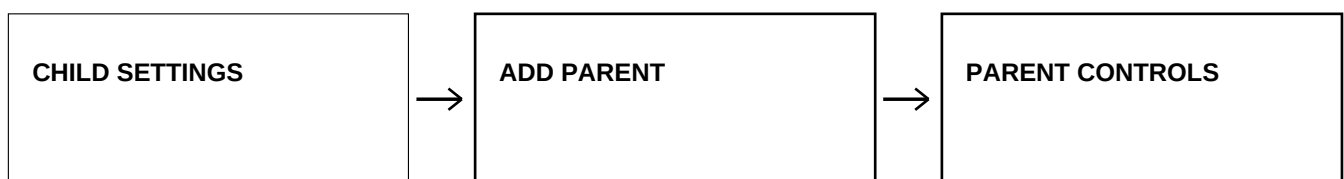

4 FIND SETTINGS YOU MANAGE

Here you can review Content restrictions, Communication, Visibility & private servers and Spending restrictions.

5 IF MENUS LOOK DIFFERENT

Use Roblox's official guide. Access and labels change with account age, product updates and region.

VISUAL RULE

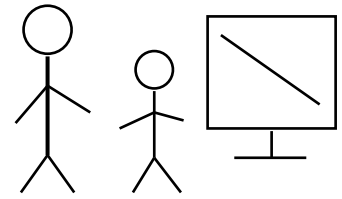

KEEP IN MIND

Do not alter a child's age to unlock more content. For under-13s, several settings require parent participation.

ROBLOX FAMILY SETUP

Choose games and people together

How to apply content, chat and visibility controls.

WALK THROUGH THE THREE MOST USEFUL SCREENS

1 CONTENT RESTRICTIONS

Open Content maturity, read rating descriptions, then check Allowed games and Blocked games.

2 COMMUNICATION

Choose chat permissions intentionally. Age checks and parental consent may be required. Some creator chat features may differ.

3 VISIBILITY & PRIVATE SERVERS

Review who sees online status, the current game and private-server access.

4 TRY THE GAME TOGETHER

Read its description and rating, play a little, then ask what other players were doing.

VISUAL RULE

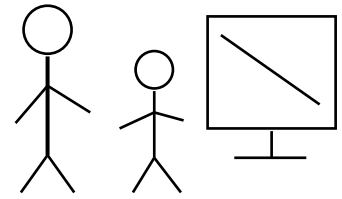

KEEP IN MIND

Ratings and chat restrictions do not guarantee a safe interaction. A blocked game can still show up in search results.

ROBLOX FAMILY SETUP

Manage minutes and Robux

A setup path, a conversation and the missing caveats.

CONFIGURE THE ACCOUNT

1 TIME

Parental controls > child > Screen time > Manage. Choose a limit from the available increments. Review Top games weekly.

2 SPENDING

Settings you manage > Spending restrictions > Monthly spending limit. Select an amount (including zero if appropriate) and update.

3 ALERTS

Choose spending notifications. Review Robux transfers and approvals where offered.

4 AGREE ON STOPPING

Before play, say: 'Which round will be the last one?' Pick the next activity before the timer ends.

5 CHECK THE EXCEPTIONS

Gift card redemption isn't blocked by spending limits, and some console purchases may behave differently.

VISUAL RULE

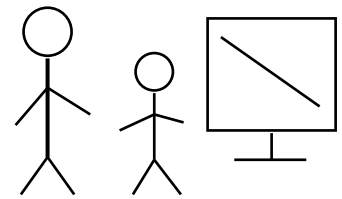

KEEP IN MIND

Some settings shift to children as they become teenagers. Check the options actually visible for your child's account.

ROBLOX FAMILY SETUP

Four situations to rehearse

Parent scripts for what settings cannot explain.

IF THIS HAPPENS, TRY SAYING

1 A STRANGER SENDS A FRIEND REQUEST

'You don't need to accept. Let's check this together and block or report if necessary.'

2 SOMEONE REQUESTS PRIVATE DETAILS

'Don't give out your school, address, number or photos. Stop replying and tell me.'

3 A PLAYER SAYS MOVE TO ANOTHER APP

'You don't have to follow them. Leave the conversation and come to me.'

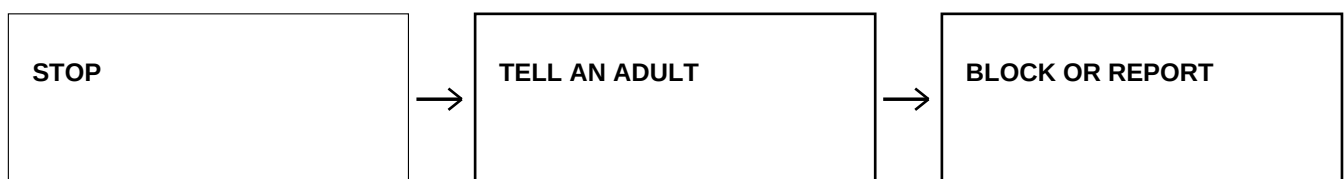

4 A GAME PROMPTS A ROBUX PURCHASE

'We never buy during a game. Let's decide later, after we've checked what it is.'

5 STOPPING CREATES AN ARGUMENT

'Next time we'll choose the last round before it begins. Let's finish the agreed plan now.'

VISUAL RULE

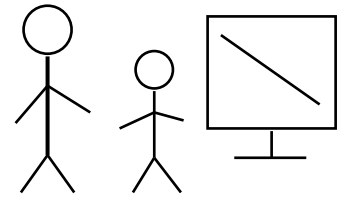

KEEP IN MIND

Keep reporting safe. A calm response gives your child more reason to speak up early.

ROBLOX FAMILY SETUP

Our Roblox family plan

Agree together and review whenever a game or friendship changes.

FILL IN WHAT ACTUALLY WORKS

KEEP IN MIND

Settings can change. Confirm the controls in the current Roblox app before assuming they work as described.
